Required Narratives

How does the LEA plan to use funds to implement prevention and mitigation strategies in order to continuously and safely operate schools for in-person learning?

* We intend to use the funds to secure additional custodial staff, sanitation supplies, and provide maintenance to buildings to secure a safer and cleaner environment for students.

How will the LEA ensure that the evidence-based interventions will address the academic impact of lost instructional time and ensure that those interventions respond to the academic, social, emotional, and mental health needs of all students including underrepresented student subgroups (each major racial and ethnic group, children from low-income families, children with disabilities, English Learners, gender, migrant students, students experiencing homelessness, and children and youth in foster care) and those who are particularly impacted disproportionately by the COVID-19 pandemic?

* We will provide after school tutoring in grades K-8 for students who are not meeting proficiency according to our assessment and RTI data. After school tutoring in grades K-3 will focus on providing additional reading intervention for students in accordance with the Literacy Act. This was a proven intervention implemented in the spring of last school year that we felt was important to continue all year long. We have hired additional interventionist to reach students during the school day. More students are requiring Tier III intervention for reading and math at all levels which required the need for additional staff to meet the needs of students. All students are invited to participate in during and after-school tutoring especially those who are in underrepresented subgroups.

Sylacauga City Schools is hiring a mental health coordinator for the system to ensure students social, emotional and mental health needs are met. A grant was provided by the SDE, but additional funds will be used to make up the difference to pay a competitive salary.

How will the LEA comply with the requirements of section 427 of GEPA (20 U.S.C. 1228a)?

The description must include information on the steps the LEA proposes to take to permit students, teachers, and other program beneficiaries to overcome barriers (including barriers based on gender, race, color, national origin, disability, and age) that impede equal access to, or participation in, the ESSER III program.

* No student, teacher or other program beneficiaries will be denied participation or access to any of the programs offered through ESSER III based on gender, race, color, national origin, disability or age. The LEA will take the following steps to overcome barriers that impede equal access to the programs offered through ARP ESSER funding:

1. Diversity training for staff members who do enrollment at each school.
2. Training for administrators on equal access for all staff and students.
3. All school staff are trained annually on equal access for all groups regardless of gender, race, color, national origin, disability and age.

How will the LEA actively monitor their allocations, conduct interim audits to ensure an appropriate application of funds, collect and manage data elements required to be reported, and report this information to the community?

* Sylacauga City Schools will review monthly account summaries of the APR ESSER funds to ensure the money is being spent according to the budget. Each quarter the LEA will report in a public Board meeting the status of the funds.

How will the LEA meaningfully engage with families and communities throughout the life of the ARP ESSER and other relief funds?

* The Sylacauga City Schools Board of Education will build the schools' and parents' and families' capacity for strong parent and family engagement, in order to ensure effective engagement of parents and families, and to support a partnership among the schools involved, parents, families, and the community to improve student academic achievement, through the following activities specifically described below:

The school district will, with the assistance of its Title I, Part A schools, provide assistance to parents of children served by the school district or school, as appropriate, in understanding topics such as the following, by undertaking the actions described in this paragraph - -

- The State's College and Career Readiness Standards (CCRS)
- The State and local academic assessments including alternate assessments,
- The requirements of Part A
- How to monitor their child's progress, and
- How to work with educators

LEA Reservation to Address Loss of Instructional Time

LEAs must reserve at least 20 percent of funds to address loss of instructional time through the implementation of evidence-based interventions and ensure that those interventions respond to students' social, emotional, and academic needs and address the disproportionate impact of COVID-19 on underrepresented student subgroups.

ARP ESSER funds will be used to host summer school at our middle and high schools for two years . During the summer of 2021 we served over 125 students in grades 6-12. This allowed students to make up missed coursework, complete credit recovery and reduce the rate of retentions because of learning loss. Summer school will be four days per week for a minimum of four weeks. Subjects will include core content areas as well as CTE courses via Edgenuity. Funds will also be used to host a STEM camp for two weeks at our 3-5 school. STEM camp will be offered two summers. 5 FTEs at Sylacauga High, 5 FTEs at Nichols-Lawson Middle School and 6 FTEs at Pinecrest Elementary will be hired. Total Cost for summer programs: \$72,000

ARP ESSER State Reserve Allocation to Address Loss of Instructional Time

The ALSDE is providing a State Reserve allocation to LEAs to address the loss of instructional time through the implementation of evidence-based interventions and ensure that those interventions respond to students’ social, emotional, and academic needs and address the disproportionate impact of COVID-19 on underrepresented student subgroups.

For the ARP ESSER State Reserve Allocation, the following interventions are allowable:

1. Summer Learning & Summer Enrichment Programs
2. Comprehensive After-School Programs
3. Other – See Intervention box C for more details.

Required Narratives

Provide a description of the evidence-based program(s) (including partnerships with community-based organizations) the LEA has selected to use with the ARP ESSER State Reserve, and how the LEA will address the disproportionate impact of COVID-19 on certain groups of students, including each major racial and ethnic group, children from low-income families, children with disabilities, English Learners, gender, migrant students, students experiencing homelessness, and children and youth in foster care.

* Sylacauga City Schools will use these funds in partnership with Sylacauga Alliance for Family Enhancement (SAFE), who runs our 21st CCLC program at our three Title I schools, to provide additional instruction to at-risk students after school and during the summer months. All students from various backgrounds will be invited to attend such programs, including those students from each major racial and ethnic group, children from low-income families, children with disabilities, English Learners, gender, migrant students, students experiencing homelessness, and children and youth in foster care.

Indicate the data sources the LEA used to identify the students most in need of the program(s) and the extent to which the LEA will evaluate the impact of the program(s).

* Sylacauga City Schools utilizes STAR reading and math to do benchmark assessments three times a year in grades K-8. This data, along with SDE assessments, grades, discipline and attendance are used to determine which students are most at-risk and need the programs.

Using the allocation from the ARP ESSER State Reserve, explain how the LEA will identify and engage

- 1) students who have missed the most in-person instruction during the 2019-2020 and 2020-2021 school years; and
- 2) students who did not consistently participate in remote instruction when offered during school building closures.

* Students who miss in-person instruction are those who are provided intervention during the school day, but also provided the opportunity for afterschool tutoring. Many students who participated in remote learning during the 2020-2021 school year missed out on instruction. They were provided with summer school sessions to make up for lost instruction. These efforts will continue during the summers of 2022 and 2023.
